EDUCATION

University of Michigan - Ann Arbor, MI (2013-2017)
Computer Science Engineering
GPA 3.406
Dean's Honor List (Winter 2014)

EXPERIENCE

Lead Web Developer - *Delivice* (September 2014 - Current)
Designed landing page and overall application styling.
Worked with customer reviews to enhance UI/UX.
Migrating existing application to in-house application.

Web Developer Intern - *Hagerty Collector Car Insurance* (May - August 2014)
Developed a robust test framework using Selenium WebDriver.
Communicated with Developers, QA Engineers, and Systems Analysts daily.
Presented my accomplishments to Department Heads and Managers.

PROJECTS

DiscoCloud - *Synchronous DJ Application* (Node.js, AngularJS, ExpressJS)
Utilized modern web technologies to develop a full stack application.
Implemented SoundCloud API and Socket.io (real-time) functionality.
Hosted and managed the application using Git and Heroku.

Website/DevBlog - *Personal Site/Blog* (HTML5, CSS3, JS, Github, Jekyll)
Wrote detailed tutorials for utilizing modern web stack software.
Utilized open source projects from Github and created logos.

BlitzBlock - *Fast Paced Interactive Game* (Android, Android-Animations)
Developed interactive game using Android Studio IDE.
Published application on Google Play Store.

MichiganToday - *One-Touch Weather Application* (Android, MySQL)
Utilized public APIs to deliver personalized weather to UofM students.
Developed simple weather application using Eclipse IDE.
Published application on Google Play Store.
