Daniel Wilson

Contact	231.313.8847 - wilsoda@umich.edu
Website	daniellytle.github.io
Objective	Seeking an internship for the summer of 2015

Education

University of Michigan - Ann Arbor, MI (2013-2017)
Computer Science Engineering
GPA 3.406
Dean's Honor List (Winter 2014)

Saint Francis High School - Traverse City, MI (2009 - 2013)
GPA 4.128

Experience

Web Developer Intern - Hagerty Collector Car Insurance (May - August 2014)
- Developed a robust test framework using Selenium WebDriver for rigorously testing company web applications autonomously
- Communicated with Developers, QA Engineers, and Systems Analysts to identify bugs, commit functional solutions, and refactor a massive code base.
- Presented my accomplishments to Department Heads and Managers

Mobile and Web Developer - Independent (2013 - Present)
- Built personal site and blogging site for residence hall
- Designing informational site for local band
- Created several Android Apps on Google Play Store

Projects

DiscoCloud - Synchronous DJ Application (MongoDB, Node.js, AngularJS, ExpressJS)
- Utilized modern web technologies to develop a full stack application
- Used Socket.io to implement real time user notifications
- Hosted and managed the application using Git and Heroku

Personal Website - Responsive Website (HTML5, CSS3, JQuery)
- Designed responsive UI/UX to be compatible with any device
- Configured email server to function with website

BlitzBlock - Fast Paced Interactive Game (Android, Android-Animations)
- Developed interactive game using Android Studio IDE
- Published application on Google Play Store

MichiganToday - One-Touch Weather Application (Android, mySQL)
- Utilized public APIs to deliver personalized weather to UofM students
- Developed simple weather application using Eclipse IDE
- Published application on Google Play Store
